For more information on **optional access solutions**, please contact us at **1.877.867.6287** (MATS) or visit our website at www.EarthTrakMat.com

EARTHTRAK™

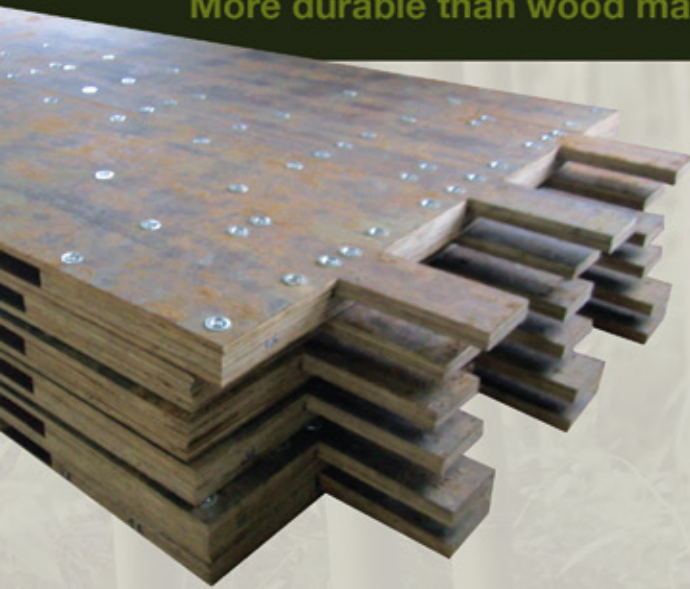

MOST SUSTAINABLE MAT IN THE WORLD

**STRONGER
LIGHTER
&
MORE
DURABLE**

More durable than wood mats, as environmentally safe as composites

Environmental Features:

- There is an abundant supply of bamboo where our EarthTrak™ Mats are manufactured. However, the demand for hardwoods in the US has created a shortage.
- Less susceptible to the transfer of invasive species
- **Less carbon footprint**
- **More mats per truck = less fuel for freight**
- **Potential carbon credits**

Benefits:

- **30% stronger than hardwoods**
- **40% lighter than hardwoods**
- **More durable than hardwoods**
- Less susceptible to breakage (damage)
- Extended lifespan over traditional wood mats
- **40% lower absorption rate**
- 3 year warranty on de-lamination & rot
- **Bamboo grows up to 8 times faster than wood** and is more readily available than hardwoods
- Easier to clean than wood mats
- No trip hazard - no cables or chains
- **Better long term investment**
